

Sam Ogola & Co. Advocates

Legal OS Project — Operations Audit & Questionnaire

This is a fillable digital PDF form. You can tap on the boxes below to type your answers directly from your phone or computer.

1. Hardware & IT Environment

[] Device Audit

Are you using a desktop or a laptop? (Roughly how old is it? Does it freeze often?)

[] OS & Browser

What operating system (Windows/Mac) and browser (Chrome/Edge) do you primarily use?

[] Internet Reliability

How stable is the office internet? Do you experience frequent downtimes or slow speeds?

[] WhatsApp Business Setup

Do you have a dedicated firm smartphone for WhatsApp Business?

[] WhatsApp Web Connection

Are you currently using WhatsApp Web on your PC? If so, does the physical phone frequently lose battery or disconnect?

[] Legacy Systems

What software or tools are you currently using? (e.g., Excel spreadsheets, physical ledgers, Google Drive, local folders).

2. Daily Workflow & Habits

[] Morning Routine

Walk me through the first 30 minutes of your day. What is the very first thing you check?

[] Court Dates Tracking

How do you currently track which client has a court date tomorrow or next week?

[] File Retrieval

If Sam asks for a specific client's file right now, how do you search for it and how long does it take?

[] Daily Bottleneck

What is the most repetitive, manual, or annoying task you have to do every single day?

[] Payments Tracking

How do you currently track if a client has paid their consultation fee or retainer?

3. Client Communication

[] Common Inquiries

What is the single most common question clients call or text you to ask?

[] Identity Verification

If a client messages from a number you haven't saved, how do you verify their identity? (Case number, ID, Name?)

[] Bulk Messaging

Do you ever need to send the exact same message to 10+ clients at once? (e.g., court closures, office relocations).

[] Emergencies Handoff

How do you distinguish between a routine status check and a client experiencing a legal emergency requiring immediate handoff to Sam?

[] Shared Phone Numbers

Do you ever have multiple clients using the exact same phone number (e.g., family members or business associates)?

4. Document Handling

[] Format & Quality

When clients send documents via WhatsApp, what format are they usually in? (Blurry photos or proper PDFs?)

[] Document Pipeline

Once you receive a document on WhatsApp, what is your exact step-by-step process? (Download -> Rename -> Print -> File?)

[] File Organization

How do you name and organize files on your computer? Is there a standard naming convention you use?

[] Illegible Documents

What happens when a client sends a document that is completely unreadable?

5. Security & Edge Cases

[] Case Sensitivity

Are there highly sensitive cases (e.g., family law, high-profile clients) where extreme privacy is required over WhatsApp?

[] Orphan Documents

What happens if a client drops off a document before their case is officially opened and filed in your system?

[] Access Control

Who else has physical access to this computer and the WhatsApp Web interface during the day?

6. Operation Checkpoints & CRM Validation

[] No-Show Rules

If a client schedules a KES 3,000 consultation and misses it, how do you mark them? (No-Show window? Flow to reschedule?)

[] Conflict Checks

When a new lead walks in, what is your manual process to ensure the firm has no Conflict of Interest with the opposing party?

[] Fee Isolation

How strictly do we isolate unpaid consultation fees? Should it block active case creation?

[] Custom Milestones

Do you need different workflow steps (milestones) for Conveyancing vs. Litigation vs. Corporate Law?

[] Direct Case Creation

Do you occasionally skip the 'Lead' phase entirely and immediately create an active case with its tracking token?
